Mr. Steven Blanchard
Homestead
0 Route 30
Jamaica, VT 05343

Dear Steve:

Debbie and I wanted to thank you and the entire Homestead team for a fabulous job in renovating our home. Your subcontractors including Wilkins Construction, Al Jeffers, Sparky Electric, BMW Contractors, and Tile Trends, just to name a few were terrific. And Tom Hoffman and Mark McManus rounded out at stellar team.

As second home owners, there is a level of stress that comes from embarking on a construction project from 200 miles away. Throughout the process, we always felt that you treated the project as if you were building your own home. The very high quality workmanship of the organization, your recommendations as the project advanced, and personal attention to detail are intangibles which demonstrated to us that Homestead was the ideal choice for us. Even with all of our changes, you were able to complete the project on schedule. The fact that we were able to establish a friendship along the way was an added bonus.

We would highly recommend your team to any future clients and thank you again for all of your efforts.

Warm regards,

Steven A. Kass
